# IT'S TIME TO CHANGE. RADICALLY.

Wonder Axon is a professional platform designed to deeply stimulate muscles throughout the entire body. In 25-minute sessions, it works on up to six body areas simultaneously using automated and configurable protocols.

## FULL-BODY MUSCLE STIMULATION

WONDER works simultaneously on the glutes, quadriceps, hamstrings, abdominals, obliques and arms. Independent control for each muscle group.

## CONNECTED TO OUR FACTORY

Every Wonder Axon is part of a connected technological ecosystem. This connectivity enables system checks, support and remote system updates.

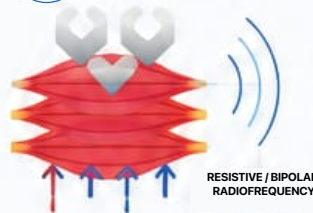

Your center gains access to a platform backed directly by the engineers who designed it, as well as specialized training and ongoing technical support throughout the lifetime of the device.

## THREE TECHNOLOGIES IN ONE

ELECTROMAGNETIC

NEUROMUSCULAR

WONDER is capable of producing 60,000 contractions throughout the body, with a record depth of up to 20 centimeters, thanks to its exclusive 1,000-microsecond pulse width.

The treatment provides an intense, vibrating 25-minute workout experience that uses technology to "imitate" and amplify the signals the brain sends to the muscles, making them contract thousands of times per second while providing a smooth and long-lasting improvement.

Users will lose centimeters immediately, and in the second phase, fat deposits are targeted.
